

BINISHA M

PYTHON FULL-STACK DEVELOPER

Skilled Python Full-Stack Developer with expertise in both front-end and back-end development. MSc in Computer Science, currently refining skills in Full-Stack Python Django with React. Passionate about building scalable, secure web applications and delivering seamless user experiences in a collaborative team environment.

INTERNSHIP

Python Full-Stack Django with React

May 2024 to Nov 2024

One Team Solutions, Thiruvananthapuram

Gained hands-on experience in developing web applications using Django and React, applying Object-Oriented Programming (OOP) principles, and Data Structures and Algorithms to improve efficiency. Managed MySQL databases for accuracy and query optimization, used Git for version control, and worked with HTML, CSS, and Bootstrap to enhance the front-end interface.

PROJECT

1). CareerQuest

Developed CareerQuest, a Django-based job portal platform that connects job seekers with employers through intuitive search, personalized profiles, and a secure application process. Implemented key features such as job listings, candidate profiles, and messaging to enhance user experience.

- **Fronend** : HTML, CSS, JavaScript, Bootstrap
- **Back-end** : Django, MySQL

2). BlogSphere

BlogSphere is a dynamic blogging platform that allows users to create, edit, and discover blogs on various categories. With an intuitive interface and a user-friendly design.

- **Fronend** : HTML, CSS, Bootstrap
- **Back-end** : Django, MySQL

3). TechVerse

Developed TechVerse, an institute management platform with roles for admin, trainers, and students, featuring course modules and an About page for streamlined communication and management.

- **Fronend** : Command Line Interface
- **Back-end** : Python, MySQL
